20 Suspected Theft, Fraud and Other Irregularities

20.1 Introduction

20.1.1 The following procedures should be followed, as a minimum, in cases of suspected theft, fraud, embezzlement, corruption or other financial irregularities to comply with Scottish Home and Health Directorate Circular No HDL(2002)23. This procedure also applies to any non-public funds.

20.2 Theft, Fraud, Embezzlement, Corruption and Other Financial Irregularities

20.2.1 The Chief Executive has the responsibility to designate an officer, known as the Fraud Liaison Officer (FLO) within the Board with specific responsibility for co-ordinating action where there are reasonable grounds for believing that an item of property, including cash, has been stolen. The FLO is currently the Director of Finance.

20.2.2 The FLO has specific responsibility for co-ordinating action where there are reasonable grounds for believing that theft, fraud, embezzlement, corruption and other financial irregularities have taken place. It is the FLO's responsibility to inform as he deems appropriate the police, the Counter Fraud Services (CFS), and the Director of Human Resources, where such an occurrence is suspected. In addition, the Chief Executive has nominated the Director of Finance as the Shetland NHS Board operational manager with specific responsibility for co-ordinating action following an act of theft.

20.2.3 Where any officer of the Board has grounds to suspect that any of the above activities has occurred, his or her local manager should be notified without delay. Local managers should in turn immediately notify the FLO, who should ensure consultation with the CFS, normally by the Chief Internal Auditor. It is essential that preliminary enquiries are carried out in strict confidence and with as much speed as possible.

20.2.4 If, in exceptional circumstances, the FLO is unavailable the local manager will report the circumstances to the Chief Executive who will be responsible for informing the CFS. As soon as possible thereafter the FLO should be advised of the situation.

20.2.5 Where preliminary investigations suggest that prima facie grounds exist for believing that a criminal offence has been committed, the CFS will undertake the investigation, on behalf of, and in co-operation with, the Board. At all stages the FLO will be kept informed of developments on such cases.

20.3 Remedial Action

20.3.1 As with all categories of loss, once the circumstances of a case are known the Director of Finance will require to take immediate steps to ensure that so far as possible these do not recur. However, no such action will be taken if it would prove prejudicial to the effective prosecution of the case. It will be necessary to identify any defects in the control systems, which may have enabled the initial loss to occur, and

to decide on any measures to prevent recurrence.

20.4 Reporting to the Scottish Government Health Directorates (SGHD)

20.4.1 While normally there is no requirement to report individual cases to the SGHD there may be occasions where the nature or scale of the alleged offence or the position of the person or persons involved, could give rise to national or local controversy and publicity. Moreover, there may be cases where the alleged fraud appears to have been of a particularly ingenious nature or where it concerns an organisation with which other health sector bodies may also have dealings. In all such cases, the SGHD must be notified of the main circumstance of the case at the same time as an approach is made to the CFS.

20.5 Responses to Press Enquiries

20.5.1 Where the publicity surrounding a particular case of alleged financial irregularity attracts enquiries from the press or other media, the Chief Executive should ensure that the relevant officials are fully aware of the importance of avoiding issuing any statements, which may be regarded as prejudicial to the outcome of criminal proceedings.
